

PINCH HITTER

HELICOPTER • ONE DAY

Cost: \$1950.00 per student

Length: One-Day

Location: Bluegrass Airport, Lexington, Kentucky

This course provides basic information and experience needed for a non-flying occupant of a helicopter to safely land the helicopter in the unlikely event of pilot incapacitation.

The course includes ground and flight instruction on basic navigation, emergency radio communications, aircraft control and maneuvering, including landing the helicopter. After course completion, the student will have a basic understanding of how to maneuver the aircraft, navigate to a safe landing area, communicate with air traffic control, and land the helicopter.

This course is designed to be completed in one day, reducing the burden for scheduling.

Training Address

4464 Gumbert Rd
Lexington, KY 40510
